

## **Sport activities 2016/2017**

Using the PE grant, we provided regular sports activities for our children. While our programme includes carefully constructed motor learning activities on a daily basis, we wanted to offer a wide range of sport and leisure activities. These activities not only provide an opportunity for our children to practice learnt motor skills, but also improve their social and communication skills. Throughout these activities they can learn valuable life skills such as turn-taking, following rules and competitiveness. The available PE Grant gave us an opportunity to organise various activities on and also off site.

### **1. Swimming**

We took our children to the new leisure centre in High Green therefore almost all of the children can have swimming sessions regularly. While not everybody can learn the elements of swimming, the activities in water have an obvious therapeutic effect.

### **2. Wheelchair Basketball**

We have a session for a selected group of children every fortnight. During these sessions children practice gross and fine motor skills. They also need to understand the rules of the play.

### **3. Activity Sheffield**

Coaches from Activity Sheffield come once a week to run a 1 hour play/sport session for our children.

### **4. Table cricket**

This is a relatively new but easily one of the most favourite sports activity for our children. They participated in a local tournament and qualified for a regional competition. It had a very positive effect on their self-esteem and it was lots of fun.

The following two sports are new for our children and we have just finished a trial in both. It is very popular and we will offer them from September 2017.

### **5. Fencing**

### **6. Archery**
